

JENNY CLEANING CHEMICALS

Jenny Cleaning Chemicals are specially formulated for use in hot and cold high pressure washers, steam cleaners and combination units. These super concentrated cleaning compounds feature only the highest quality raw materials which result in superior cleaning ability to tackle even the most stubborn cleaning problems. The chemicals come in three basic forms (Liquid, Powder, and Drum Kit.) and are all biodegradable.

The highly soluble Powders are specially blended to readily mix with water to create a super concentrated cleaning solution to meet the most demanding cleaning applications. They are easy to store and handle.

The Drum Kits consist of a separate container of powder and a container of specially blended liquid emulsifiers. The kits are designed to be mixed anywhere water and a container can be found. Slowly mix the powder with water until completely dissolved, then add the liquid portion. The result is a highly concentrated cleaning compound with superior cleaning ability. The kits are the answer to high freight costs and limited space.

The only super concentrate currently available as a liquid is spray wax. It features the highest available wax technology and provides instant protection, durability and shine.

Jenny®

KITS

ALL PURPOSE CLEANER KIT

All Purpose Cleaner is a safe, economical, and effective cleaner that comes in a 5 or 55 gallon kit that can be mixed by the customer to save shipping and product costs. It contains a special blend of emulsifiers, solvents, and complex alkaline builders to quickly loosen and remove a wide variety of grease, grime, and soils. It can be used for all types of general cleaning where a good general cleaner is needed.

Types of Companies Using:

Anyone using an over the counter type liquid cleaner. Office Maintenance, Light Equipment Cleaning, Manufacturing.
(Available in 5 & 55 gallon Kits)

TRUCK WASH KIT

Truck Wash Kit is designed to allow the customer to mix their own drums of liquid detergent to save in freight and products costs. The specially formulated combination of emulsifiers, solvents and alkaline detergents allow the product to penetrate and loosen heavy soil and grease loads quickly and efficiently.

Types of Companies Using:

Fleet Washing, Beer, Cola, Bread Distributors.
(Available in 55 gallon Kit)

EXTREME DUTY DEGREASER

Extreme Duty Degreaser is designed to allow the customer to mix their own drums of super concentrated liquid detergent. It offers a unique blend of specially formulated high strength cleaning components rich

with aggressive alkalines which will thoroughly penetrate and remove grease, soil and many other substances found in only the toughest and most stubborn cleaning jobs.

Types of Companies Using:

Heavy Equipment Companies, Diesel Shops, Manufacturing.
(Available in 55 gallon Kit)

HEAVY DUTY CLEANER KIT

Heavy Duty Cleaner Kit is an easy to mix powerful cleaner designed to allow the customer to make their own drums of concentrated liquid detergent. The blended and balanced combination of emulsifiers, solvents and highly alkaline builders penetrate and route out heavy grease, soil, and grime. It is designed for heavier soil loads that lower alkaline products will not remove. Heavy Duty Cleaner is ideal for heavy duty steam cleaning and degreasing and concrete floor cleaning. Biodegradable and non-toxic.

Types of Companies Using:

Fleet Washing, Exhaust System Repair, Service Bays, Manufacturing.
(Available in 55 gallon Kit)

POWDERS

ALL PURPOSE POWDER

All Purpose Powder is specially formulated for use in high pressure washer and can be used to wash any washable surface. It is a straight synthetic, biodegradable product with excellent penetrating and emulsifying action due to the special combination of builders and emulsifiers. It is harmless to wax and is free rinsing to give a spot free surface.

Types of Companies Using:

Car Dealers, Car/Truck Washes, Fleet Washing, Contract Cleaners.
(Available in 40 pound Container)

HEAVY DUTY POWDER

Heavy Duty Powder is a super concentrated powder with a light caustic base and is specifically formulated for the cleaning of cars and trucks. It acts synergistically to provide maximum penetration and run-off of soils. Rinses quickly and easily and is great for general cleaning of all kinds.

Types of Companies Using:

Self-Serve Car Wash, Automatic Car Wash, Truck Wash, Fleet Washing, House Wash.
(Available in 40 pound Container)

CAR WASH DETERGENT

Car Wash Detergent is a mild alkaline powdered compound designed to be very versatile. It can be used in fully or semi-automatic car wash systems, professional pressure washing equipment and for hand washing. It can also be used as a general light duty cleaner and is free rinsing, non-irritating, non-toxic and stable in hard water.

Types of Companies using:

All types of vehicle washing.
(Available in 40 pound Container)

SUPER HOT STEAM CLEANER POWDER

Super Hot Steam Cleaner Powder is a non-toxic, heavy duty steam cleaning compound that cleans heavily encrusted grease, oil and hard to clean soils both quickly and effectively and yet will not clog lines or corrode equipment. Its outstanding cleaning power is accomplished by a very special blend of emulsifiers and not by a high caustic content.

Types of Companies Using:

Maintenance Companies, Contractors, Heavy Equipment Dealers.
(Available in 40 pound Container)

CABINET WASHER POWDER

Cabinet Washer Powder is an aluminum and all metal safe product formulated specifically for Cabinet and Pass-Thru Washers. It is effective on heavy grease, oil, and carbon buildups. This heavy duty compound is a long lasting formula that is safe, non-corrosive, economical, produces no irritating fumes, and will not plug heating coils.

Types Of Companies Using: Transmission Shops, Rebuilders, Diesel Rebuilders, Machine Shops, Manufacturers.
(Available in 40 pound Container)

COIL CLEAN

Coil Clean is a granular powder that is designed to dissolve lime and scale build-up inside coils. Used as directed, it is safe for both personnel and equipment. It contains a built-in inhibitor that offers protection to most metal surfaces.

Types of Companies Using:

Contract Cleaners, Pressure Washer Service Centers, End Users.
(Available in 4-8 Pound Containers per Case)

LIQUIDS

SPRAY WAX

Spray Wax was specially formulated for the car and truck wash industry and features only the best available wax technology. It provides instant wash protection with long lasting durability in all kinds of weather. Spray Wax can be used either hot or cold and requires no final buffing.

Types of Companies Using: Car/Truck Washes, Fleet Wash, Automatic Washes.

(Available in 5 or 55 gallon Containers)
